

## Steven C. Higgs

Senior Vice President

### Profile

With over 11 years of experience in construction management, Steve has focused on contracting, scheduling, estimating, bidding and contract administration. As Senior Vice President, he serves as Regional Manager of the Southeast. At KLMK, he not only applies these talents to his projects, but also assists in determining the business equation involved in the development of new facilities.

Steve is a problem solver, helping Project Delivery Teams prioritize the many components of the project. He is also process-oriented, which he feels improves efficiency while reducing surprises that often frustrate everyone involved.
